

**Decision of the MTA EK, NCBJ, UJV Řež and VUJE  
on launching the ALLEGRO Project - Preparatory Phase**

§ 1.

Magyar Tudományos Akadémia Energiatudományi Kutatóközpont (MTA EK), Narodowe Centrum Badań Jądrowych (NCBJ), ÚJV Řež, a. s. (UJV Řež) and VUJE, a.s. (VUJE) decided to launch the ALLEGRO Project – Preparatory Phase. They decided to entitle the V4G4 Centre of Excellence association with the management and coordination of the “ALLEGRO Project – Preparatory Phase”.

§ 2.

The main aim of the “ALLEGRO Project – Preparatory Phase” is the elaboration of the conceptual design of the ALLEGRO reactor.

The “ALLEGRO Project – Preparatory Phase” is launched for the period 2015-2025. This period is divided into two sub-periods:

- preparation of the ALLEGRO pre-conceptual design (2015-2020)
- preparation of the ALLEGRO conceptual design (2020-2025)

§ 3.

MTA EK, NCBJ, UJV Řež and VUJE decided on launching the “ALLEGRO Project – Preparatory Phase” on July 1, 2015.

In Husinec-Řež on July 1, 2015
